EDUCATION

Guru Tegh Bahadur Institute of Technology, Delhi <i>B.Tech - Information Technology - CGPA - 7.8</i>	2022 – 2026 <i>Delhi, India</i>
DAV Public School, Ambala Cantt, Haryana <i>CBSE - Class XII Percentage: 86%</i>	2020 – 2022 <i>Ambala Cantt, India</i>
DAV Public School, Ambala Cantt, Haryana <i>CBSE - Class X Percentage: 92%</i>	2018 – 2020 <i>Ambala Cantt, India</i>

COURSEWORK / SKILLS

- Operating Systems
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Computer Networks
- Web Development

PROJECTS

IoT Room Occupancy Tracker [↗](#)

- **Tech Stack:** ReactJS, Node.js, MongoDB Atlas, Socket.io, Arduino IDE, Python, ESP32, PIR Motion Sensor, Breadboard, LED
- Designed an IoT Room Occupancy Tracker using a PIR motion sensor and ESP32. Each event is sent to a Node.js backend, stored in MongoDB, and visualized on a React dashboard showing live status, motion logs, and usage trends.

Cold Email Generator [↗](#)

- **Tech Stack:** Python, Streamlit, LangChain, Groq LLM, Gmail API, PDFPlumber, OAuth 2.0
- Built an AI-powered application that generates personalized cold emails by analyzing job descriptions and resume content, performs skill matching, and enables secure email sending with resume attachment using Gmail API.

Form-Filler [↗](#)

- **Tech Stack:** JavaScript (ES6+), HTML5, CSS3, Chrome Extensions, Manifest V3, Content Scripts, Local Storage
- A Chrome extension that automates web form filling with intelligent field detection, multi-profile management, and secure password generation. Reduces form-filling time by 80%+ while maintaining data security through local storage.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Developer Tools: VS Code, Postman, Vercel, Jira, Git, Github

Technologies/Frameworks: ReactJS, NodeJS, ExpressJS, Tailwind, Supabase

EXTRACURRICULAR

Entrepreneurship Society, GTBIT

<i>Core Team Member</i>	2024 – 2026 <i>Delhi, India</i>
• Active core team member of the Entrepreneurship society contributing to event planning and student engagement. • Participated in various college initiatives and workshops related to technology and entrepreneurship.	

CERTIFICATIONS

- Completed Udemy course: “The Complete Web Development Course” by Hitesh Choudhary
- Completed Arduino Training by Spoken Tutorial Project, IIT Bombay
- Completed Udemy PHP Full-Stack Web Developer Bootcamp
- Completed 8-week online training on Web Development on Internshala
